Subject: RDX Draft Assessment

Lou and Sue,

Attached are some brief comments on the RDX assessment. I focused on the sections that Lou highlighted below. Also, I am in process of tracking down the best references / SOPs for selection of doses in NTP chronic bioassays.

Best Regards,
Reeder

Subject: here you go....RDX

I've attached the supplemental material as well, but you'll probably want to focus more on the tox review. Looks like Sue might have started to work on it on top of Ravi's edits, but not extensively.

Places to look include:

Executive Summary (ES3-4)

Carcinogenicity (1-60 to 1-72)

Cancer descriptor discussion (1-96 to 1-101)

THANK YOU!

-Lou
